Core Competencies to Support Software Development/O&M/Agile

SydanTech supports the US Government by providing comprehensive application development, modernization and enhancement (DME) using adaptive Agile methodologies. We have been serving the US Government since 2001. We support D/M/E with integrated DevSecOps and cloud management for hundreds of applications across government.

SydanTech provides comprehensive Software Development:

- Program Management
- Agile Software Development
- Development, Modernization, Enhancement (DME)
- Systems Development / Lifecycle Support
- Application Development
- Business Analytics
- Cloud Migration / Cloud Center of Excellence (CCoE)

SydanTech provides Operations & Maintenance:

- Cyber Security Risk Management (RMF)
- Systems Administration
- Database Administration
- SharePoint Administration
- Asset Management / Shelf Stock Supply Chain
- Configuration Management

Differentiators

SydanTech is highly experienced as a prime contractor supporting numerous government agencies including the US Air Force, National Oceanic Atmospheric Administration, Environmental Protection Agency, US Department of the Interior, US Department of Agriculture, US Fish and Wildlife Service, and other agencies.

We provide many advantages to our customers:

- ISO 9001, ISO 20000, ISO 27001, CMMI 3 Certified
- DoD DSS TS Cleared Facility
- Experienced and certified personnel
